What was the best experience during your mobility?

-I really liked all the erasmus, but I think that the best experience was travelling to a different country and staying at the house of some strangers that in some ways became friends or a part of our family, and to meet different people with whom we bonded a lot and with whom we had a wonderful experience

-Nicolae Romanescu park

-My favorite experience during the mobility is when we participated in a flash mob together

-The friendship that has been created with the Romanian boys

-Surely it was the chance to speak often in English and not in my mother language. I had the opportunity to improve and learn new things

-The best experience was getting to know each other.

-My favorite experience was when we made the flashmob in Romanescu park

-All the activities of the experience were beautiful but I preferred the treasure hunt activity in the botanical garden and the realisation of the flashmob on the environment made in the Romanescu Park

-I couldn't say what my favorite experience was, the whole trip was a magnificent experience. The best thing was to get involved with languages, with the ability to relate in a few moments with people I didn't know. from the first moment we became part of a family. One of the most significant memories was certainly the moment of the final goodbyes.

-Every single thing was wonderful, I liked spending time with the other guys
